KEELER'S PATENT IRON SCALES.

First Premium Ohio State Fair, 1858.

THESE SCALES had awarded to them the First Premium at the State Fair, over the celebrated Fairbank's Scale, and beat that Scale more than 7 to 1 at a recent severe public test, invited by the agents of Fairbanks, at Fort Wayne, Ind. The following show how these Scales are appreciated by business men of Cleveland :

CLEVELAND, JANUARY 8th, 1859.

MR. J. F. KEELER—*Dear Sir:* Having had one of your Platform Scales in use for the past ten years, it gives me pleasure to say that they have given entire satisfaction up to this time, and promise well for the future.

A. J. HOLT.

OUR PATENT LEVELER

Is attached to all our Scales, for no Scale can weigh correctly, as the following shows :

CLEVELAND, JANUARY 8th, 1859.

This certifies that some months since, finding that our Fairbanks Floor Scale was not weighing accurately, we requested Mr. Keeler to examine it. He discovered it to be out of level, and on restoring it to a level it weighed correctly. The variation of the Scale from a level position had been so small as to escape our notice, and was hardly preceptible until a leveler was applied.

HANNA, GARRETSON & CO.

Address orders to KEELER'S SCALE WORKS, Cleveland, Ohio.

D E N T I S T R Y,

A T

211 SUPERIOR ST., CLEVELAND.

IF YOUR TEETH ARE GOOD,

READ THE FOLLOWING LINES.

IF YOUR TEETH ARE BAD,

READ THEM WITH GREAT CARE.

If you have no Teeth at all, **LISP :**

A FACT that is daily exhibited in the streets, in the social circle, and in the parlor, by the humblest peasant and the proudest autocrat is, that hundreds of persons LOSE good sets of teeth for the want of the timely aid of a good and skillful dentist. A POOR and INFERIOR operation is in many cases WORSE than none at all. If your teeth are good, have them examined by a good dentist, and keep them in order. If poor, no time should be lost, but have them repaired—the sooner the better, and escape that which Burns says is the HELL of all diseases. All irregularities of the teeth should be attended to in childhood and youth.

ALL PERSONS DESIROUS OF FINE DENTAL OPERATIONS,

are invited to call at my room, where particular attention is given to the preservation of the natural teeth, where the vulcanized corallite, or Gutta Percha base for artificial teeth is manufactured, and all varieties of artificial teeth are put up in the best manner.

P R E F A C E .

IN submitting to the citizens of Cleveland a City Directory for 1859-60, we deem it an act of justice to ourselves, to explain and remark upon a few things in connection therewith in this prefatory manner. In ordinary cases a book of this character needs no such remark. "A CITY DIRECTORY" sufficiently explains the import and character of the work, but at the present time a few words upon the importance, &c., of the present Directory appear to be necessary.

The delay in its publication has been unavoidable, however annoying it has been to our subscribers and more particularly to ourselves. It will be remembered that last year the City Council provided by ordinance for the assigning and re-numbering of the buildings throughout the city, and appointed an officer to attend to it; supposing it would be prosecuted to completion last year, we took measures to have the canvassing for the Directory completed at the same time, and its publication made as soon thereafter as practicable. In this we were disappointed, as the re-numbering was delayed until this spring, and effected through our own exertions at last. This delay in re-numbering the streets, of course rendered all our labors last year in canvassing, totally useless. After being thus delayed by matters entirely beyond our control, we have used due diligence to perfect a new canvass of the city, since the re-numbering *was* completed; and to arrange, print and publish the same in its present form. This statement we plead as our excuse for the delay of the publication.

In the meantime the almost indispensable *necessity* for this Directory has been keenly felt by citizens and strangers. A part of the streets having had their numbers changed, rendered the information in the old Directories uncertain and unreliable, and in many cases worse than useless; and as the work of re-numbering progressed, the difficulties of finding particular residences increased, until the annoying uncertainty of existing information made the publication of this Directory indispensable. We do not feel surprised that there should be, under such a condition of things, a great anxiety to have the new Directory printed.

In this work we have given the numbers of the houses and places of business in accordance with the re-numbering of the streets. This may and will bring about some degree of uncertainty, inasmuch as some of our citizens have neglected and still neglect to have proper numbers placed upon their buildings, but it will not exist a great while, because in addition to the inducement to citizens to have their numbers correspond with the Directory, the proper authorities will soon enforce a compliance with the ordinance. The importance of taking down the old numbers and putting up the new ones cannot be too strongly impressed upon the minds of our citizens. It is of the highest importance to avoid annoyances resulting from such a "mixture"—annoyances affecting in a greater or less extent, every resident of the city.

The publishers feel a great satisfaction in presenting this Directory to the public, from the fact that it is more complete than any other ever published in Cleveland, having over two THOUSAND more names than have been heretofore published. The canvassing, collating, arranging and printing, they flatter themselves has been done in a commendable manner, and if not wholly without errors, it has that degree of perfection, which, under the circumstances they think should and does make it valuable, and all that could reasonably be expected. Errors undoubtedly have worked their way into the book, and it is improbable and almost impossible, to publish a book of this character without errors. The greatest care and caution, neglecting neither trouble nor expense, has been exercised by the publishers to make it a complete and reliable "CITY AND BUSINESS DIRECTORY," and they have the assurance to think that it is such a one as will meet with the approbation of the public.

It is now the intention of the publishers to publish a New Directory on the first of June, every year, which will give an opportunity of correcting errors which appear in this and succeeding Directories.

There is one thing that we would like to urge upon the minds of the proper authorities, as of great importance and closely allied to the improvement commenced in re-numbering the streets, and that is to *put up proper sign boards on the various streets*. There are a great many streets which have none.

To our advertising patrons we return our sincere thanks for their support, and confidently present our first issue of the Cleveland City Directory to a discriminating public, trusting that the care and attention bestowed upon its preparation will, in the eyes of a generous community, meet the approbation they deserve.

J. H. WILLISTON & CO., PUBLISHERS.

CITY ORDINANCE.

IN RELATION TO CABS AND HACKS.

From any steamboat landing or railroad depot to any hotel or private residence, on, or west of Erie street, for each passenger with ordinary baggage----- 25 cents

If east of Erie street, and on or west of Hudson street,----- 50 cents

To any railroad depot or steamboat landing, the same charge and fare within the same limits.

For conveying one passenger from any point or place, to any other point or place within the city limits, not exceeding one mile, and returning without delay,---- 25 cents

If two or more passengers,----- 50 cents

For conveying one passenger over one and not exceeding two miles, and returning without delay,----- 50 cents

If two or more passengers----- one dollar

If detained by the passengers, 50 cents per hour may be charged for the actual time detained.

For the use of a hackney carriage, cab or omnibus by the hour, one dollar for the first hour, and 50 cents for each succeeding hour.

After 9 o'clock, P. M., fifty per cent. may be added to the above rates.

Any person engaging a hackney carriage, cab, or omnibus, at any given time, 50 cts may be charged for one passenger for any distance not exceeding one mile

If two or more passengers,----- 75 cents

Each and every person keeping a livery stable within the limits of the city, shall pay the sum of five dollars for every carriage, cab or omnibus, which they may at any time place on a public stand or run as a public conveyance, within said city, and shall be regularly numbered and subject to the same regulations as hereinbefore provided.

It shall be the duty of the city clerk to furnish to the owner or owners of cabs, carriages or omnibuses, a printed card with the rates of fare mentioned above, and the said owner or owners of cabs, carriages or omnibuses, shall cause the same to be kept in a conspicuous place inside of each carriage, cab or omnibus.

No person having in charge any hackney carriage, cab or omnibus, shall remain more than ten feet distant from the same, unless when engaged in his legitimate business.

That for the violation of any of the foregoing sections, the driver or owner of any cab, carriage or omnibus, so offending, shall forfeit and pay for each and every offence, the penalty of ten dollars.

WAGOMEN, CARTMEN AND DRAYMEN'S RATES.

For every load of coal, per bush-----	1ct
For every hogshead of rum or other spirituous liquors, exceeding ninety gallons, -----	18¾ cts.
For every hogshead of molasses,-----	18¾ cts.
For every pipe of wine or spirituous liquors, -----	18¾ cts.
For every tierce of molasses, rum or other spirituous liquors, exceeding 60 gallons and less than 90 gallons,-----	12½ cts
For every cask of molasses, rum or other spirituous liquors, exceeding 30 and less than 60 gallons, ----	12½ cts.

PUBLIC SCHOOLS AND TEACHERS.

The Public Schools of the city are divided into Primary, Secondary, Intermediate and Grammar Schools, a Central High School and Branch High School. These Schools are open to all youth between the ages of six and twenty-one. Generally speaking, the Primary Schools are intended for children from six to eight years of age; the secondary and intermediate for those who are from eight to ten; the Grammar Schools for those over ten; and the High School for those over twelve, who wish to pursue the higher branches of education, and who are found on examination, quali-

fied to enter upon the course prescribed for this School. The period of time spent, however, in each grade of Schools depends more upon scholarship than age. The number of scholars enrolled the past year was about six thousand. Seventy-nine teachers are employed at an annual expense of over \$34,000. Penmanship, Drawing and Music are conducted by professional instructors. There are three terms of school in the year, one of thirteen, and two of fifteen weeks each; vacations nine weeks.

The School Buildings of the First Ward are on Eagle and Prospect streets; of the Second Ward on Rockwell street; of the Third Ward on St. Clair, between Bank and Seneca streets; of the Fourth Ward on Brownell street; of the Fifth Ward on St. Clair street, east of Erie; of the Sixth Ward on Mayflower street; of the Seventh Ward on St. Clair street, near the Pittsburgh R. R. Depot; of the Eighth Ward on Pearl street; of the Ninth Ward on Hicks street; of the Tenth Ward on Kentucky street; of the Eleventh Ward on Penn street. The Central High School is located on Euclid street, and the Branch High School on Kentucky street.

School Terms, 1859 — Fall Term commences August 29, and closes December 24. Winter Term commences January 2, and closes April 1. Spring Term commences April 17, and closes July 7.

[TEACHERS.]

CLEVELAND INSTITUTE,

[LATE CLEVELAND UNIVERSITY.]

University Heights, 1 1/4 Miles S. E. from the Public Square,

CLEVELAND, O.

R. F. HUMISTON, A. M., . . . PRINCIPAL & PROPRIETOR,

Assisted by a Corps of Ten Thorough and Accomplished Instructors.

Board, Washing, Fuel, Lights, in all but the Ornamental Branches.....\$200 per year.

Day Scholars, Tuition in all English Branches..... 40 per year.

Extra for Languages,..... 20 per year.

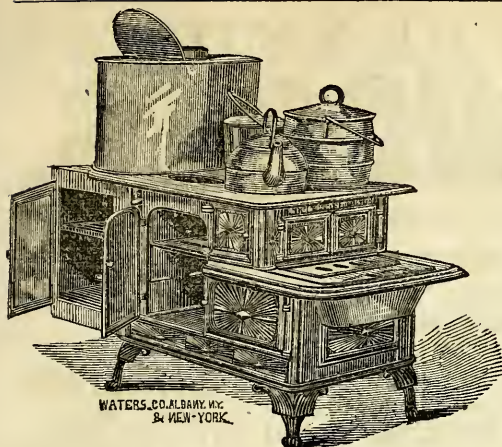

Facilities are here offered for pursuing, on the most favorable terms, almost any branch of study desired, under the instruction of experienced and successful educators.

A graduating course of study is prescribed for both ladies and gentlemen, and students of correct deportment, after having pursued this course and passed a satisfactory examination, will receive diplomas. Those desirous of fitting for College, for Teaching, or for Business Life, will receive *thorough preparatory training*.

The first Term of the Academic year, commences Wednesday, Sept. 7th, and continues twenty weeks. The second term commences Monday, Feb. 20th, continues twenty weeks, and closes July 6th.

Among the *peculiar* advantages of this Institution may be named its retired and *healthful* location—its ease of access from the city and all parts of the surrounding country by Railroad and Omnibuses—the *unsurpassed beauty* of its site, overlooking the city, the lake, and the shipping of the harbor—its *ample grounds*, and facilities for *Physical Training*: the pupils having daily drilling exercises in the GYMNASIUM, which is one of the largest and most thoroughly furnished in the State,—its Library, Chemical and Philosophical Apparatus, and Cabinets of Natural History,—its flourishing Societies, and its courses of lectures on almost every variety of subject.

Mountcastle M. W., 39 Frankfort.

is acknowledged to be the best in the State.

1. The first part of the report is a general statement of the work done during the year. It is a summary of the work of the various departments of the institution, and is intended to give a general idea of the progress of the work.

This image shows a piece of antique paper, possibly a document or photograph, that is severely aged and damaged. The paper is a dark, mottled brown color with significant yellowing and staining throughout. A large, irregular tear is visible on the left side, where the paper has been torn away, revealing a lighter, fibrous material underneath. The surface of the paper is covered in numerous small, dark spots and larger, irregular stains, suggesting water damage or mold over time. Faint, illegible markings are scattered across the surface, but no clear text or figures can be discerned. The overall appearance is one of extreme age and wear.
